

IN THE DRAWINGS

Reference numeral 10 has been added to the replacement drawing sheet as required by the examiner. Reference numeral 24 now only designates the router, to maintain consistency with the specification of the present application. Reference numeral 24 previously designating one of the fasteners has now been changed to numeral 26. Additionally, reference numeral 37 described in the specification is now labeled in FIG. 2.

Remarks

The Office Action mailed August 23, 2006 has been received and reviewed. Claims 2-6, 9-12, 15, 16, and 19 have been amended. Claims 1, 14, 20 and 21 have been cancelled. Claims 28-46 are withdrawn. Reconsideration of the application in view of the following remarks is respectfully requested.

Election/Restriction

The Examiner restricted the examination to two separate inventions: Claims 1-27 as invention I, and claims 28-46 as invention II. Pursuant to the previous telephone conversation with the Examiner, Applicants elect to pursue invention I (claims 1-27) for examination. This election is made without traverse.

Drawing Objections

The drawings were objected to under 37 CFR 1.84(p)(4-5) as having incorrect reference numeral designations. Applicants submit herewith a replacement sheet including FIGS. 1-3 with the reference numeral corrections requested by the Examiner.

Specification Objections

The specification was objected to because of the use of reference characters 36 and 37 to designate connectors. Applicants have now amended the figures as described above, and in particular added reference character 37 to FIG. 2 in order to properly designate one of the second plurality of connectors.

Rejections based on 35 U.S.C. § 102 and/or 103

Claims 1-8, 10-13 and 16-27 were rejected under 35 USC 102(b) as being anticipated by Malcolm (USPN 5,913,034). Claim 9 was rejected under 35 USC 103(a) as being unpatentable over Malcolm in view of Moore et al. (USPN 6,201,690). Claim 14 was rejected

under 35 USC 103(a) as being unpatentable over Malcolm in view of Gill et al. (USPN 5,388,032).

Claim 15 was being objected to as being dependent on a rejected base claim, but otherwise held allowable.

Claim 15 has been amended to include all of the limitations of base claim 1, and intervening claim 14. Claim 15 has also been amended to remove the term “GPS coordinates”, which has been replaced with the term “geolocation”, to more correctly and consistently refer to terms used in the specification of the present application (see e.g., paragraphs 0020, 0071, 0073 – “geographic locations”). It is respectfully asserted that claim 15 is now in condition for allowance.

Additionally, claims 2-6, 9-12 and 16 have been amended to depend from now allowable claim 15, and pending claims 7, 8, 13, 17-19 and 22-27 depend indirectly from claim 15. It is respectfully submitted that claims 2-13, 16-19 and 22-27 are also now in condition for allowance.

CONCLUSION

It is believed that pending claims 2-13, 15-19 and 22-27 are now in condition for allowance. If any issues remain that would prevent issuance of this application, the Examiner is urged to contact the undersigned by telephone prior to issuing a subsequent action. It is believed that no fee is due in conjunction with the present amendment. However, if this belief is in error, the Commissioner is hereby authorized to charge any amount required to Deposit Account No. 21-0765.

Respectfully submitted,

/Jeffrey B. Williams/
